

BP Monitoring Management System v1.0 Background Storage XSS

After registering an account and logging in, click Add to add a new Family Member

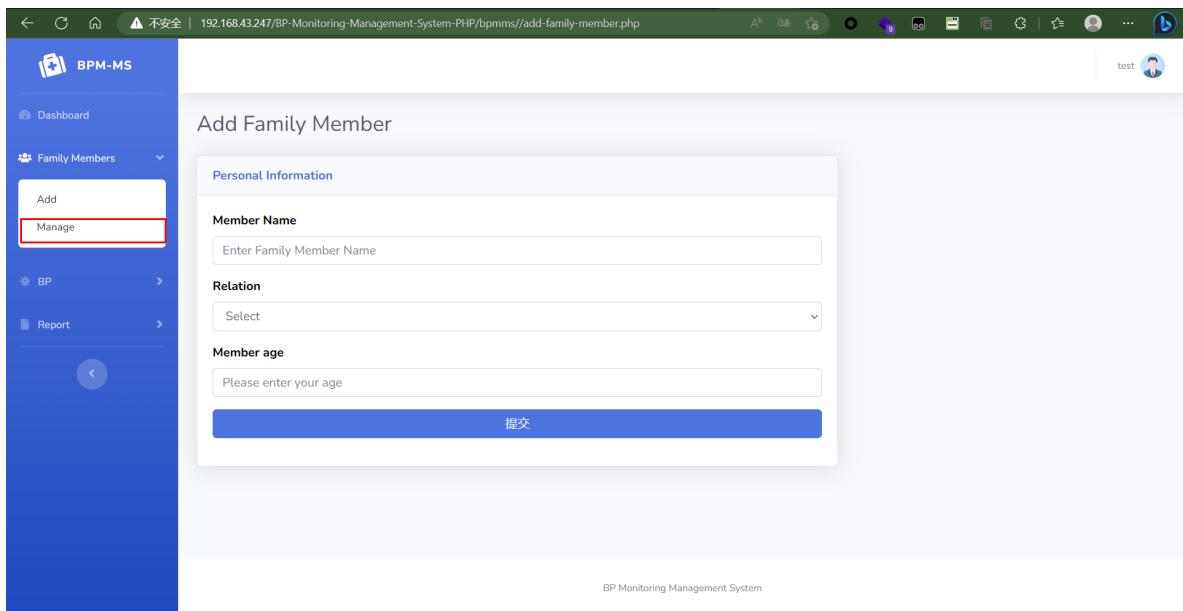

The screenshot shows the 'Add Family Member' page of the BP Monitoring Management System. On the left, there's a sidebar with 'Family Members' selected, showing 'Add' and 'Manage' options. The main area has a 'Personal Information' section with fields for 'Member Name', 'Relation', and 'Member age'. A blue '提交' (Submit) button is at the bottom. The URL in the browser is 192.168.43.247/BP-Monitoring-Management-System-PHP/bpmms//add-family-member.php#.

Insert XSS attack statement at Member Name and click submit

The screenshot shows the same 'Add Family Member' page as before, but with an XSS payload ('<script>alert(1)</script>') entered into the 'Member Name' field. The 'Relation' field contains 'Other' and the 'Member age' field contains '22'. The URL in the browser is 192.168.43.247/BP-Monitoring-Management-System-PHP/bpmms//add-family-member.php#.

Coming to Family Members Manage

The screenshot shows a web application interface for 'BP Monitoring Management System'. On the left, there's a sidebar with icons for Dashboard, Family Members (with 'Add' and 'Manage' options), BP, and Report. The 'Manage' option under Family Members is highlighted with a red box. The main content area is titled 'Add Family Member' and contains a 'Personal Information' form. It includes fields for 'Member Name' (with placeholder 'Enter Family Member Name'), 'Relation' (a dropdown menu with 'Select' option), 'Member age' (with placeholder 'Please enter your age'), and a blue '提交' (Submit) button. At the bottom right of the page, it says 'BP Monitoring Management System'.

XSS attack successful, XSS payload will be triggered every time Family Members Manage is accessed
