

## BP Monitoring Management System v1.0 Background Storage XSS

After registering an account and logging in, click Add to add a new Family Member

The screenshot shows the 'Add Family Member' page of the BP Monitoring Management System. On the left, there's a sidebar with 'Family Members' selected. Under 'Family Members', there are two buttons: 'Add' (highlighted with a red box) and 'Manage'. The main area has three sections: 'Personal Information' (with 'Member Name' field), 'Relation' (with 'Select' dropdown), and 'Member age' (with 'Please enter your age' field). A blue '提交' (Submit) button is at the bottom. The URL in the browser is 192.168.43.247/BP-Monitoring-Management-System-PHP/bpmms//add-family-member.php#.

Insert XSS attack statement at Member Name and click submit

The screenshot shows the same 'Add Family Member' page as before, but with an XSS payload ('<script>alert(1)</script>') entered into the 'Member Name' field. The rest of the form fields ('Relation' set to 'Other' and 'Member age' set to '22') and the '提交' button remain the same. The URL in the browser is 192.168.43.247/BP-Monitoring-Management-System-PHP/bpmms//add-family-member.php#.
